REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

None of the references show a foamed chocolate with the specific gravity of the claims that contains a step of formulating an oil composition that contains a tri-saturated fatty acid glyceride containing behenic acid. The reference to Asama (6,482,464) shows a gas-incorporated chocolate having the specific gravity of the claims but does not incorporate a tri-saturated glyceride containing behenic acid. Also the reference to Asama was filed after the filing date of the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
